Progress Measures KS1 to KS2

Subject	Progress Score	Confidence interval
Reading	+1.3	(0.0 to 2.6)
Writing	+0.1	(-1.1 to 1.3)
Maths	+1.7	(0.6 to 2.9)

A school's progress scores for English reading, English writing and mathematics are calculated as its pupils' average progress scores. This means that school level progress scores will be presented as positive and negative numbers either side of zero.

- A score of 0 means pupils in this school, on average, do about as well at key stage 2 as those with similar prior attainment nationally.
- A positive score means pupils in this school on average do better at key stage 2 than those with similar prior attainment nationally.
- A negative score means pupils in this school on average do worse at key stage 2 than those with similar prior attainment nationally. A negative score does not necessarily mean a school is below the floor

Confidence intervals

Where a confidence interval overlaps zero, this means that the school's progress score is not significantly different from the national average.
